What We're Reading
[Coaching for Equity](#) by *Elena Aguilar*

In the month of January, The IPP Demo Site Team at the Haring Center read *Coaching for Equity* by Elena Aguilar. This book introduces an updated Transformational Coaching framework and focuses on addressing the educational equalities that prevent schools and educators from thriving.

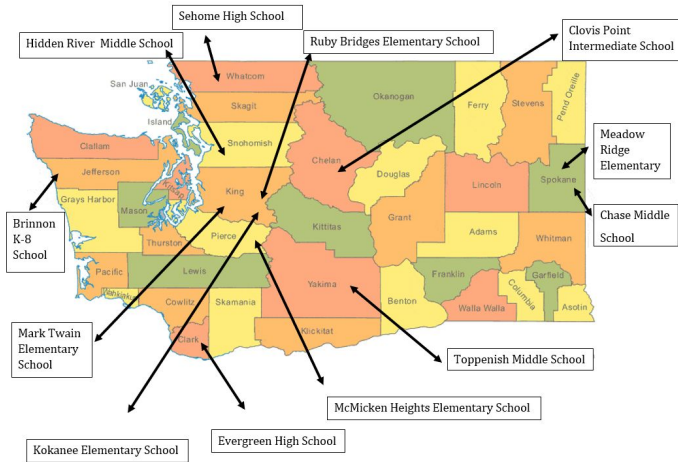

The IPP Demosites team appreciated Aguilar's use of personal narratives and openness to demonstrate what coaching for equity means in practice and how we can make our efforts more equitable for all. Additionally her book provides essential tools for coaches to be successful in their efforts to influence a more equitable world.
