What's one thing about the SpEd rubrics that worked for you this year in your classroom?

13 responses

taking into account classroom participation

It gave me a clear outline on how to grade the student

Having evidence of why I graded the students the way I did

Puts content in perspective as just a part of the goals for that student.

It removes any subjective thinking from the process.

The rubrics helped me quantify a score for modifications

Consistency

Gives me a way to grade SpEd students

Visual reminder that the student is working at a different level.

### What's one thing you'd like to see improved about the SpEd rubrics for next year?

13 responses

N/A

Clear expectations for their use and that everyone needs to be on the same page

More training

I think there are times where an F is appropriate.

Some answer for student who truly deserve an Failing grade.

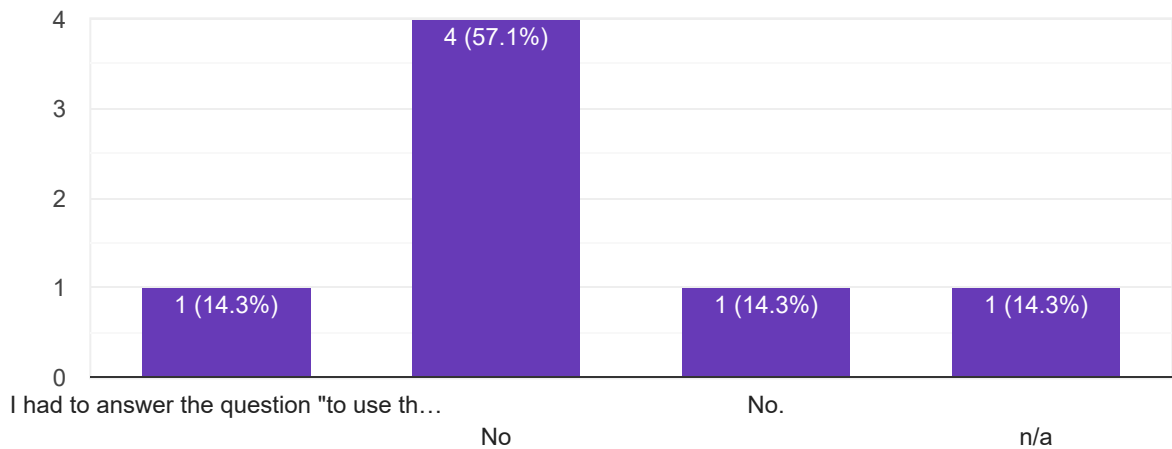

the categories do not always apply for every assignment.

A way to recognize the students that are not turning anything in or failing to do any work in the gen ed classroom.

Making the rubrics somewhat specialized for individual students' needs/strengths/weaknesses
