

# MAKERS SPACE ACTIVITY

OCTOBER 1<sup>st</sup>, 2024 | MPR

## SUPPLIES:

Water Color paper (provided)

Water Color paints & brushes (provided)

Water rinse bowl (provided)

Salt shakers (provided)

Mini Paper Cups filled with water (provided)

**Pencil (please bring your own)**

## SUCCESS CRITERIA:

Students will practice being RESPONSIBLE by using art supplies appropriately and carefully. During the guided art activity, students will aim to keep the paint on their paper, cleaning up any spills or messes, while helping their buddies. Students will practice raising their hand when they are ready for the salt shaker to come by.

## DIRECTIONS:

Students will receive a sheet of water color paper. Students will write “by: \_\_\_\_\_” and their name in the bottom right corner in pencil. Students will be able to choose whatever colors to paint their whole paper. Teachers will walk around to assist by sprinkling salt flakes using provided salt shakers to their paintings for the final touch! Most papers should dry quickly, but we do not have drying racks, so be prepared for each student to carry their own artwork back to class with two hands to dry!

## PREP:

Custodian will assist in leaving lunch tables down for activity in the MPR.

PBIS Team will prep lunch tables with materials set out including paper, paint & brushes, mini water cups.

Keep a dry rag for adults to help catch any spills to minimize table washing at the end.
