Navigating the SmartTeach® app while using GOLD®

The navigation menu and features will differ depending on which licenses you're using, whether you're an administrator or teacher, or what view you're in. For example, if you have access to GOLD®, the bottom menu includes the following options:

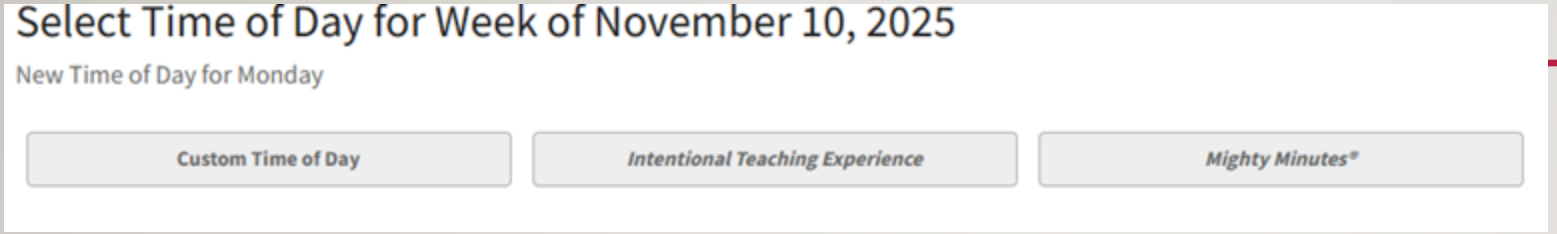

- **My Day (1):** Tap this icon to review your daily lesson plan from Teach.
- **My Class (2):** Tap this icon to view your class roster and access Child Profiles. If you have access to Tadpoles® as well, you will be able to access class management and care tracking tools (Taking Attendance, Name-to-Face Checks, Care Routine Dashboard) from here.
- **"+" Icon (3):** Tap this icon to send a message to families, access your device's camera to capture media, add documentation, or access the Screener available users of the Creative Curriculum for Infants or the Creative Curriculum for Toddlers. Press and hold this icon to quickly capture media.
- **Documentation (4):** Tap this icon to review all documentation you have collected on the app that is either in progress or already uploaded to GOLD.
- **More (5):** Tap this icon to access the Mighty Minutes library, My Media, the Welcome screen, and Messages — where you review recent messages from families and send new messages and announcements.

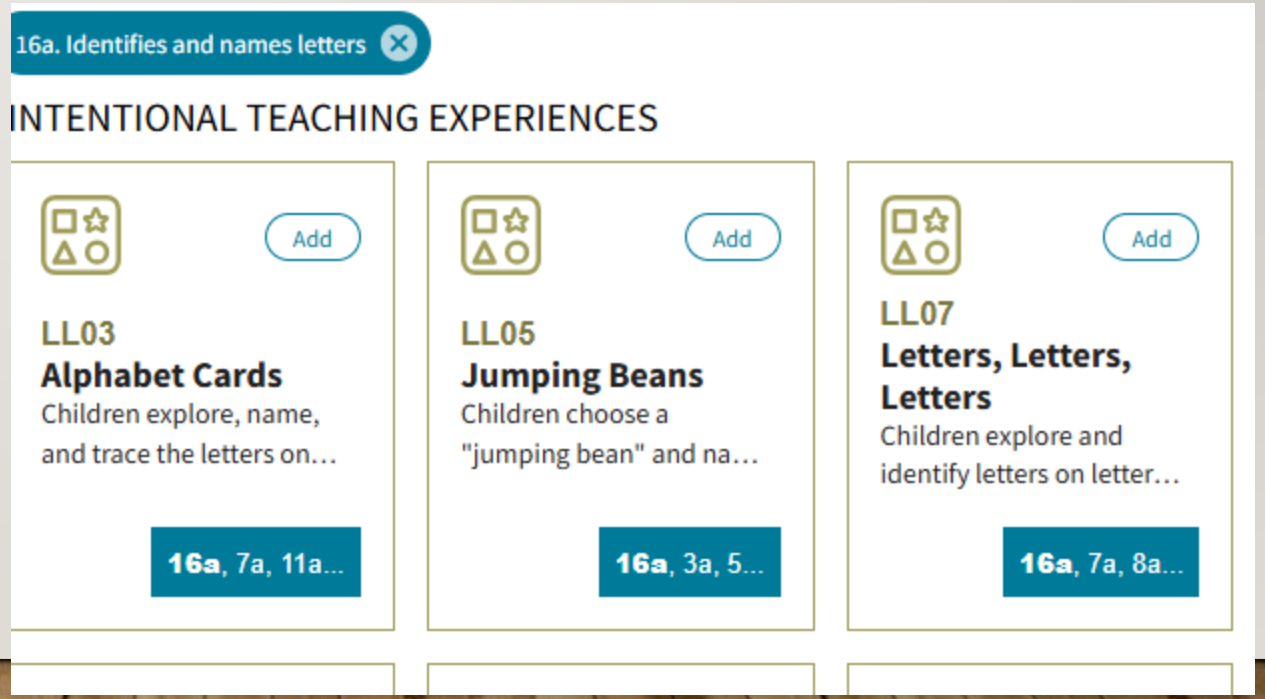

Sharing resources with families

Intentionally planning for students

QUESTIONS

- What questions do you have?
- What support do you need?
